

Exeter River Corridor Wildlife and Habitat Protection Project:

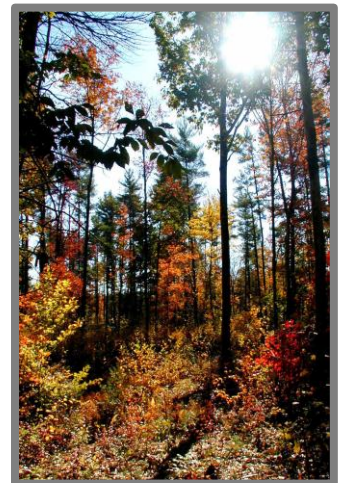

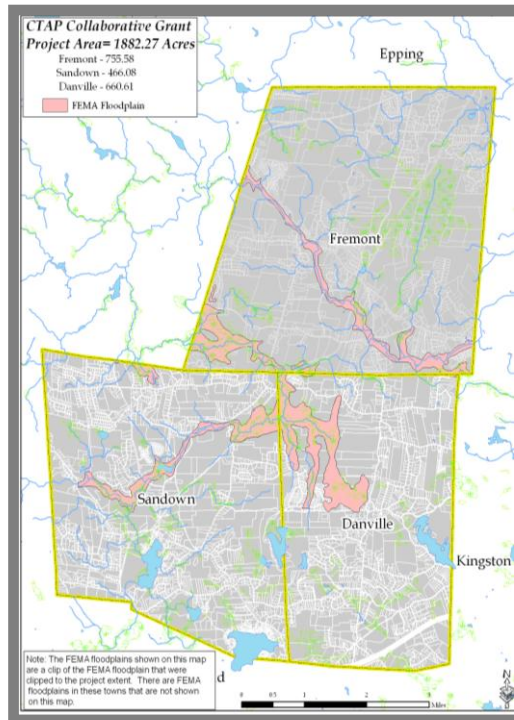

Danville, Fremont and Sandown, New Hampshire

Funded through the NHDOT I-93 Community Technical Assistance Program (CTAP)

Please join us for a presentation of the **Exeter River Corridor Bio-Inventory Project** including a report of wildlife, habitat, wetlands and other resources in Danville, Fremont, Sandown (refer to project area on map).

Monday January 24th from 7:30-8:30pm at the Fremont Town Hall
Wednesday January 26th from 7:00-8:00pm at the Sandown Town Hall

THE PURPOSE OF THIS PROJECT IS TO:

- ✓ Improve planning and protection of wildlife habitat and resources in the Exeter River corridor and watershed
- ✓ Raise public awareness of important wildlife, habitat and natural resources in the region
- ✓ Guide natural resource policy and planning
- ✓ Inform planning and zoning initiatives that influence future development patterns and land use
