The Steering Committee is asked to review and comment on the content of the CTAP Blueprint Draft prepared by Antioch New England Institute. Please reserve your general typo and formatting critiques for the next round of reviews.

Questions to consider while reviewing Blueprint Draft:

1. Does the document clearly and adequately summarize the planning session outcomes?
 - If no, what areas are lacking or unclear and what type of information is needed to make it clearer?
2. Does the document appear to cover the appropriate material?
 - What additional material should be included (that is not covered in the TOC)?
 - Should material be excluded?
3. Is the document organized in a clear and logical order?
 - If no, what suggestions do you have to reorder?
4. Do you agree with the proposed CTAP Organizational Structure (Chapter 5)?
5. What comments would you like the Steering Committee to address?
