

I-93 CTAP TECHNICAL ASSISTANCE  
NEW HAMPSHIRE DEPARTMENT OF EDUCATION  
101 Pleasant Street  
Concord, NH 03301

Contact: Ed Murdough, 271-2037, [emurdough@ed.state.nh.us](mailto:emurdough@ed.state.nh.us)

The NH Department of Education can provide technical assistance to school districts in identifying long range school facility needs. The department can assist school districts to:

- evaluate their current school facilities to determine current capacity and future needs, and
- identify resources to perform detailed facility audits and demographic studies to project future school enrollment.
- The School Building Aid program, authorized by RSA 198:15-a, can provide funding between 30% and 60% of the cost of construction, including the costs of planning, design, and land acquisition. Funds are not available however, until actual construction takes place.
